WARS' VETERANS JOIN IN DEDICATION OF AMPHITHEATER

Men Who Fought for Nation Honored at Arling-

ton.

CAPT. NEWTON READS PRESIDENT'S MESSAGE

Exercises Under Auspices of G. A. R. Conducted by Gen. Hall-Addresses by Prominent Men.

Veterans of three wars joined with high officials of the government this afternoon in the ceremonies of dedication of the Arlington amphitheater and chapel erected in memory of all soldiers, sailors and marines who fought the battles of the United States. Members of the diplomatic corps, cabinet, Congress, the judiciary and a great assemblage of people occupied all the available space within the vast enclosure and part of the surrounding grounds.

The exercises which began at 2:30 d'clock were conducted under the auspices of the Grand Army of the Republic, with Gen. D. M. Hall, commander in chief of that organization, in direct charge. That honor was accorded the G. A. R. by the Arlington memorial commission in recognition of the successful efforts of that organization in bringing about the erection of the beautiful marble

Message From President. President Wilson was to have made an address on the occasion, but finally was persuaded by Dr. Grayson, his physician, to cancel the engagement on account of the sudden climatic changes of the last few days. It was arranged instead that the address he had prepared should be read in his name by Capt. Charles Newton, the representative of the Spanish War Veterans on the memorial committee. The change of plans was made after the official program had been printed and distributed showing as one of its features "an address by the President of the United States."

With the exception noted the program as prepared was carried out. Following music by the Marine Band and an invocation by William W. Gist, chaplain-in-chief, G. A. R., Secretary Baker of the War Department, chairman of the manufal commission. man of the memorial commission, made a short address and presented Gen. D. M. Hall, commander-in-chief of the G. A. R., as the presiding officer.

Secretary Baker said in part:
'We are assembled to dedicate this autiful memorial that it may crown this city of the nation's heroic dead and be an assembling place in all fu-ture time for those who cherish the brave traditions of that struggle.

The war between the states laid to est questions which fretted and vexed our national development; its decision was accepted as final; and as the years went by the loosened energies of a great people were devoted to the development of a new and broader destiny for the republic. In-vention and discovery remake the environment in which nations live, and move, and America has become a great industrial nation along with move, and America has become a great industrial nation along with other civilized peoples, but she has, at the same time, by the genius of her children, not only preserved and cultivated her own liberty, but has become the exemplar of freedom to the world. PRESIDENT'S TRIBUTE TO MEN WHO FOUGHT

ary of War Baker, read at the dedition of the Arlington Memorial Amitheater this afternoon, follows: "The dedication of the national

memorial at Arlington closes and commits to history a great episode in the making of a nation. Gathered into this national cemetery, and elsewhere, are most of the men who fought out the constitutional questions insoluble by other processes, and now the govern-ment has set this great and beautiful building to stand like a sen-tinel on the banks of the Potomac and to view for all time the Cap-itol of a reunited nation. "Time has thrown its softening

"Time has thrown its softening influence over the controversy; time has eliminated from our memories the bitterness which that controversy aroused, but time has only served to magnify the heroic valor of the captains and the men who fought the great fight. As the nation arose, reunited, it found itself blessed with a great tradiitself blessed with a great tradi-tion. In these later days, that tra-dition has nerved the arms of millions of Americans called upon to vindicate upon foreign fields of battle the principles of political liberty. Who shall say whence the strength came of these matchless men? From every corner of our great country they came with one thought—that of devotion to the pure purpose for which their coun-try called them. They lived among our allies and faced the foe as soldiers from the new world should, conscious of their strength, confident of their cause, alike unself-ish and unconquerable. And I like to think that in their hour of triumph, unseen but potent, there stood beside them the spirits of the great dead, the spirits of those who originally rescued America from the political tyrannies of the old world and dedicated and kept her

free and just.
"I cannot attend the ceremony of this dedication, but my heart is there, and with my fellow coun-trymen everywhere I join in grateful recognition of the virtues which this memorial commemorates and in reverent thanks to the God of nations that He has made it possible for us in this day to show the world that America is still baptized with the spirit of her founders and builders."

Condemning the shoe trade for ascribing wage advances as the compelling cause for the fantastic price increases, Mr. Lauck said that in 1914 all the labor costs, from the hide for the finished shoe, absorbed less than one-sixth of the price paid by the consumer, while in 1917 this shape of labor had decreased to one-ninth of the that building. Amply Supplied With Artillery.

Carranza's troops were well supplied with artillery and machine guns, and revolutionary infantry and cavalry met a perfect barrage of shells and bullets as they advanced to the attack. Two of Carranza's trains were taken and burned, but government forces were able to stop the advance, and after four hours of fighting the insurgents retired. Heavy losses were inflicted on both sides during the combat, it is reported in dispatches to El Dictamen.
